

PROJECT DETAILS:

Student's helper website is a website which is a great help for all the young and the aspiring coders out there. It is basically a kind of hub in which can be accessible to anyone online for free. It consists of different types of webpages linked together such as:-

Portfolio

Photo editor

Music Player

Sticky Notes

Resume

Profile Card

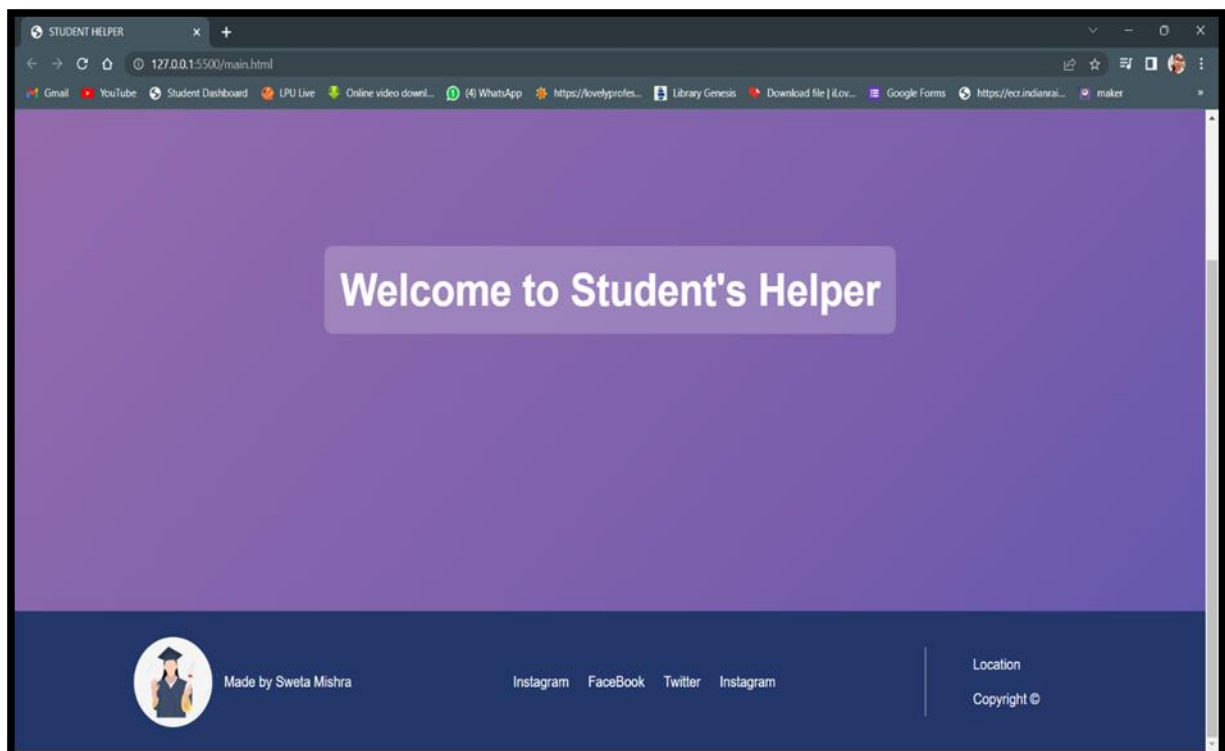

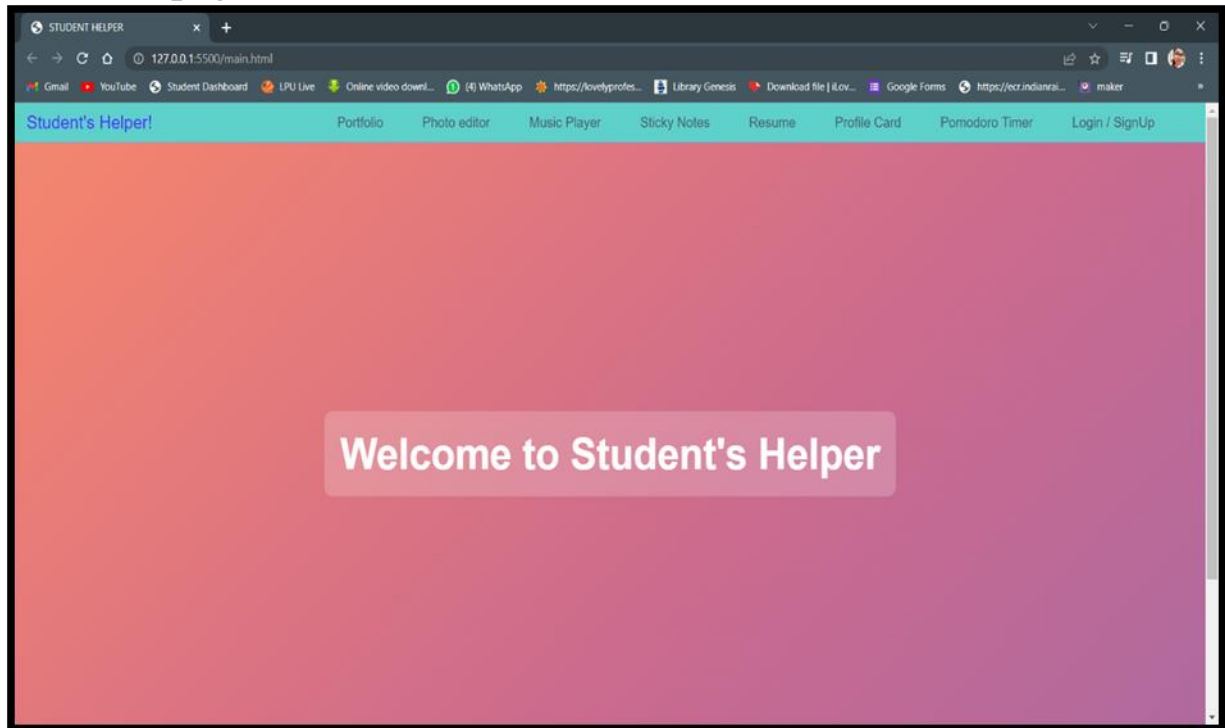

Pomodoro Timer

Login / Sign Up

Here one can use those for specific purposes and also then can download the code for building there own resume .So, multiple task can be done according to one's use and requirement.

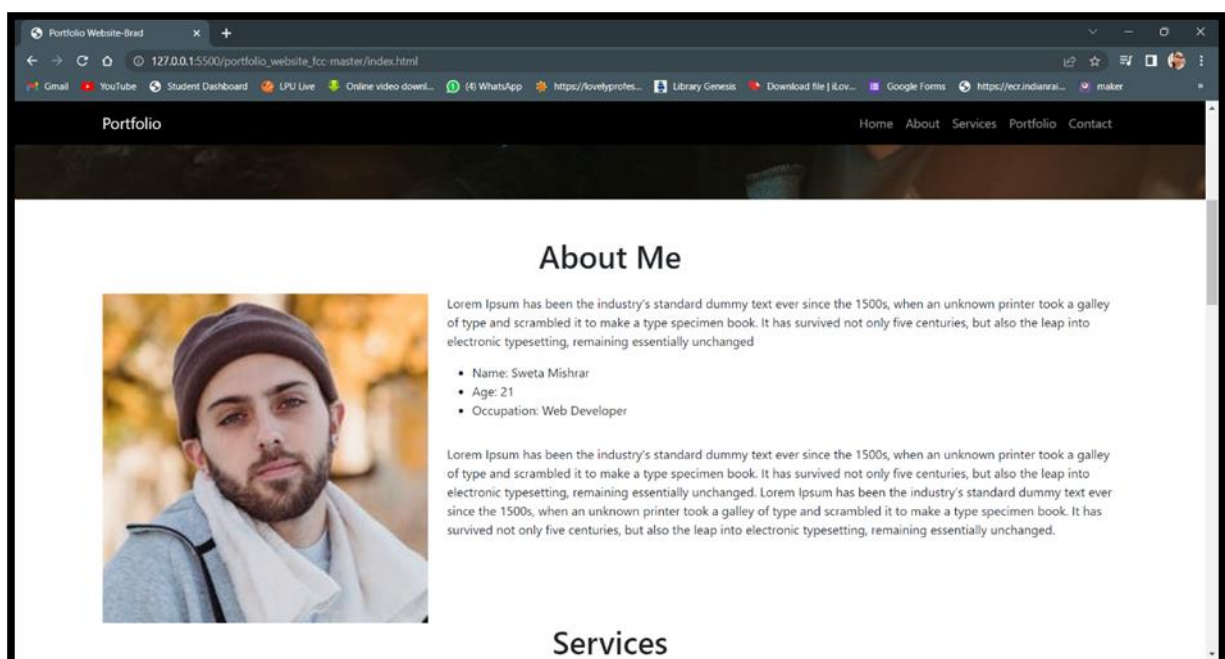

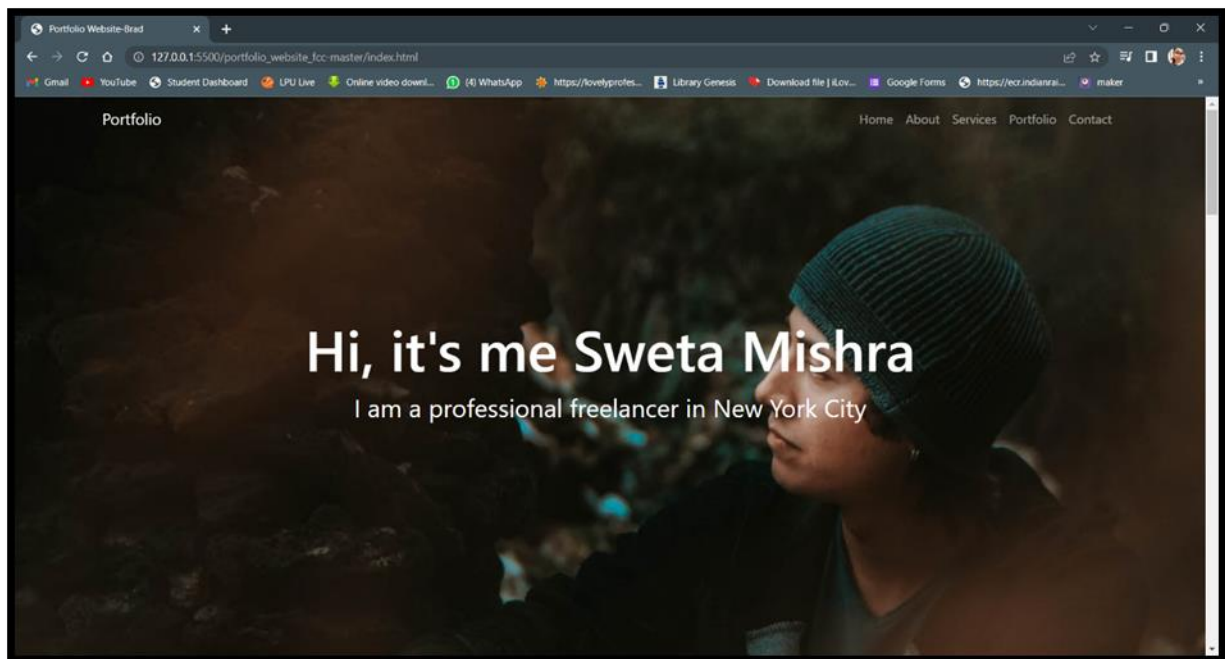

1 . First Page

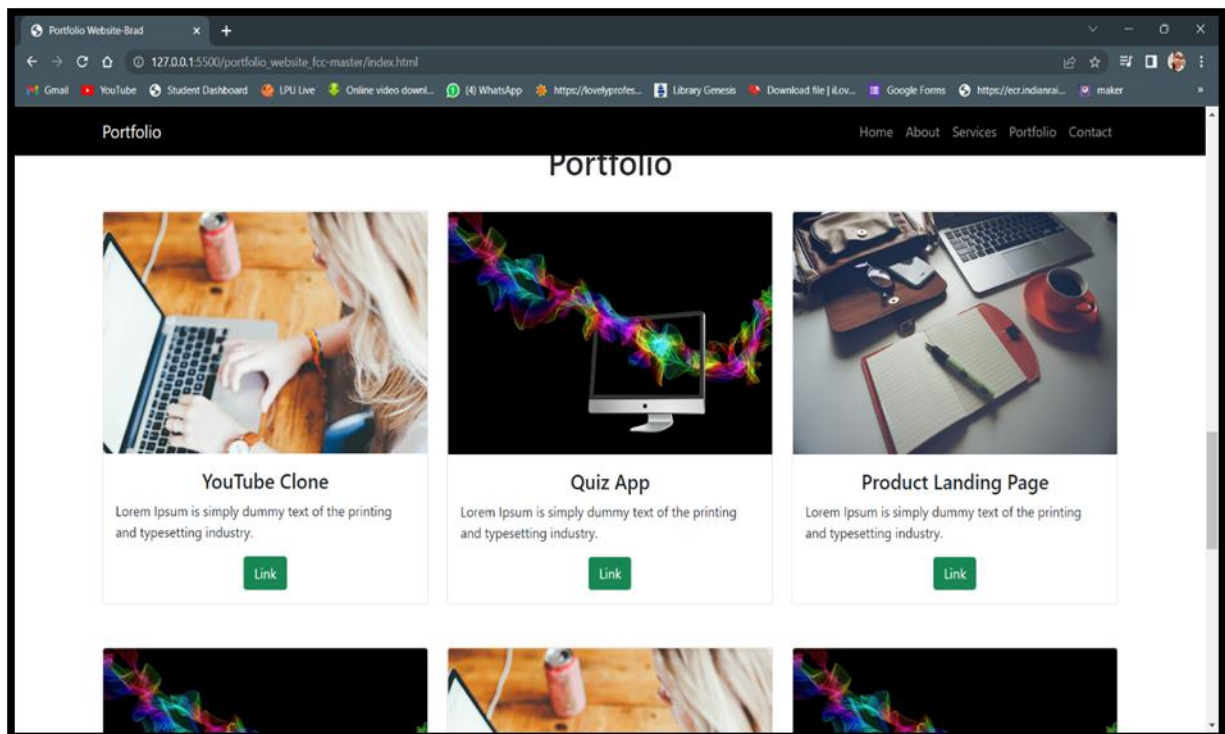

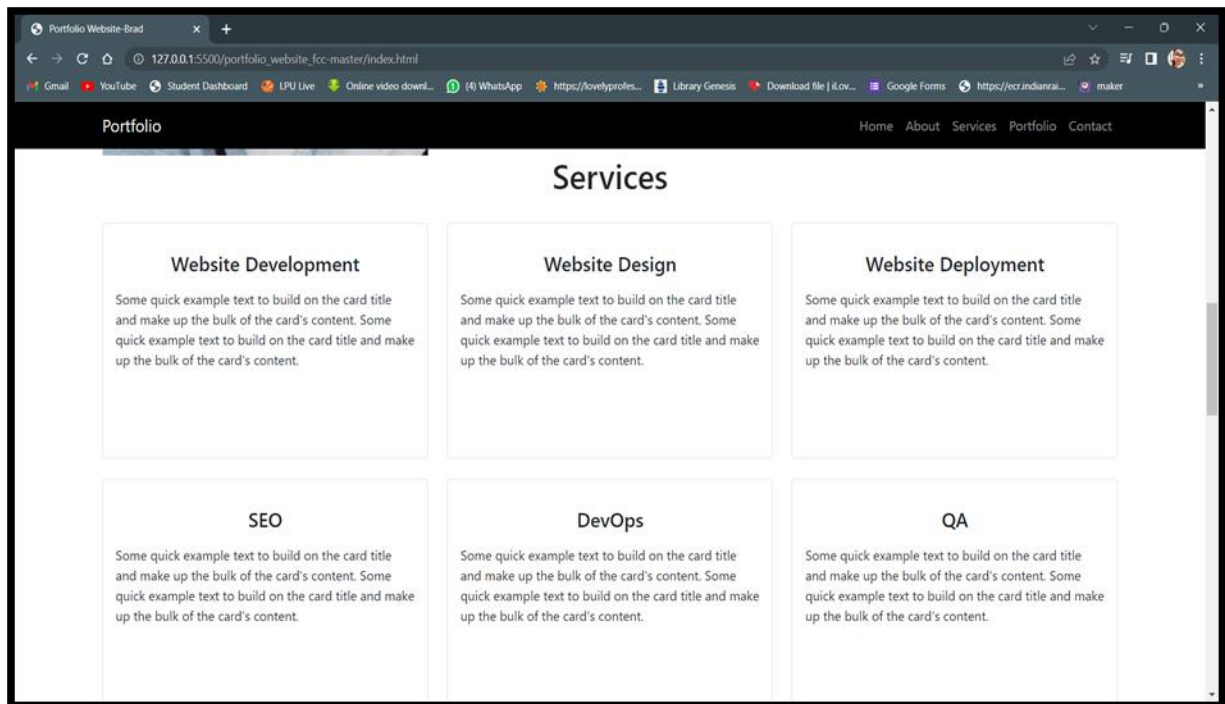

It is the home page of the website where from you can go to all the other webpages.

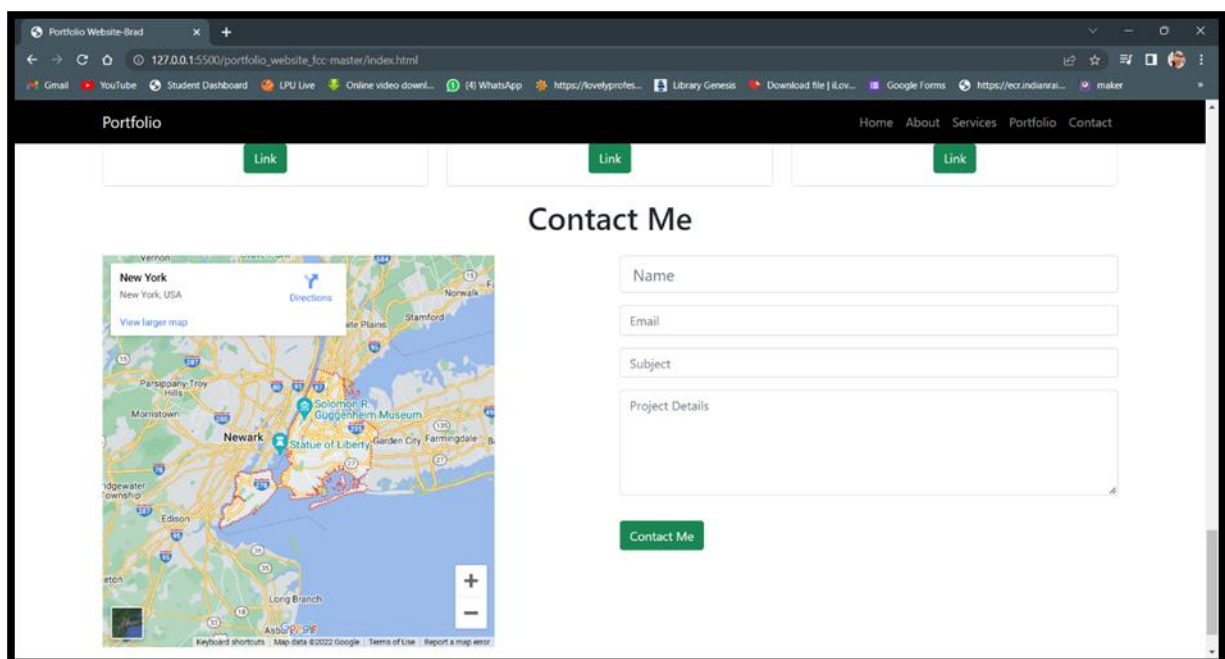

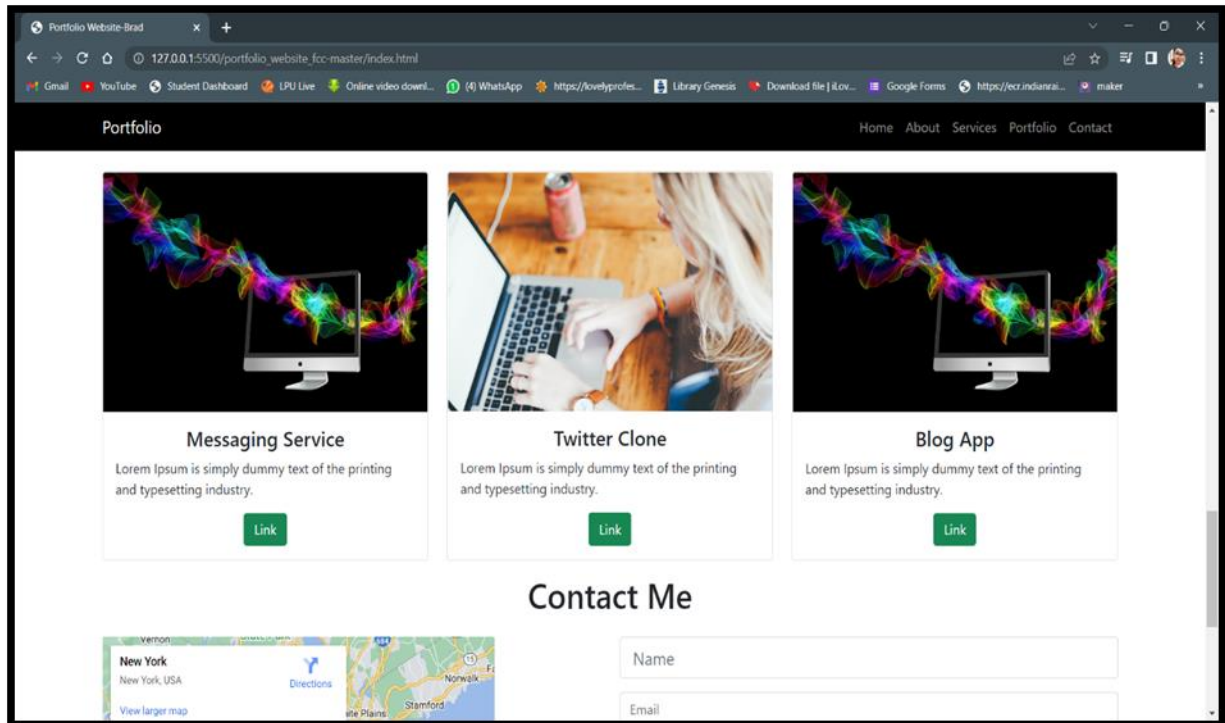

2. Second Page

This page contains the portfolio website, where one student can build and redesign the code for their own portfolio making and also one can download the code for putting it in resume for project making section.

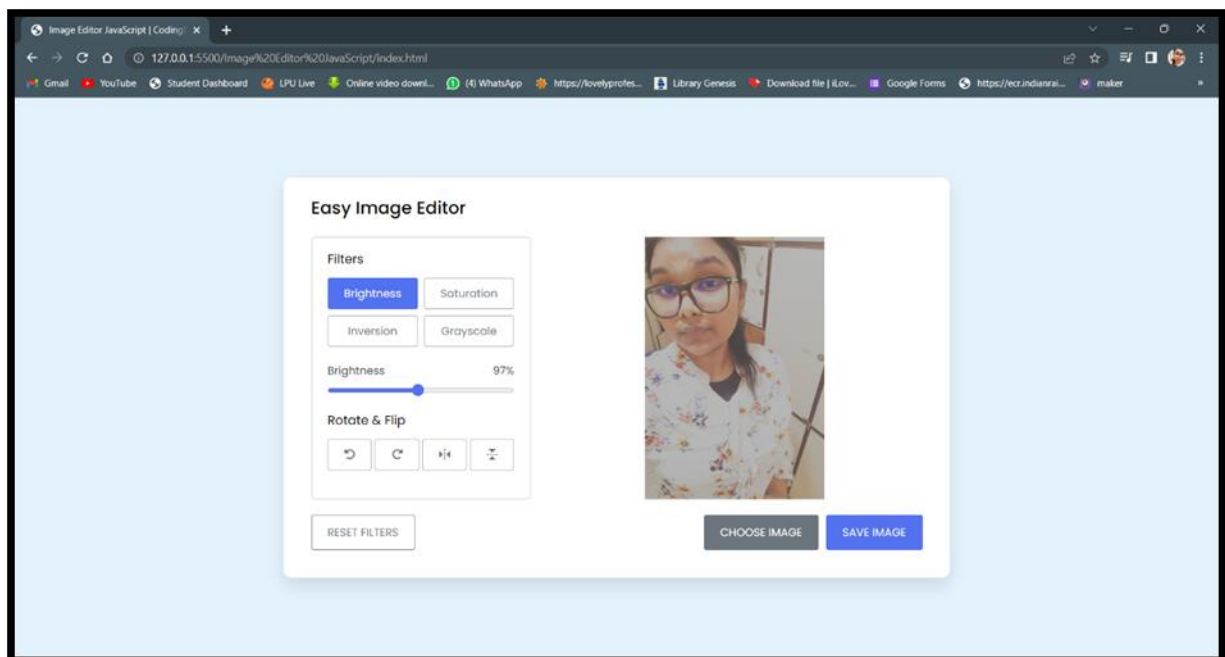

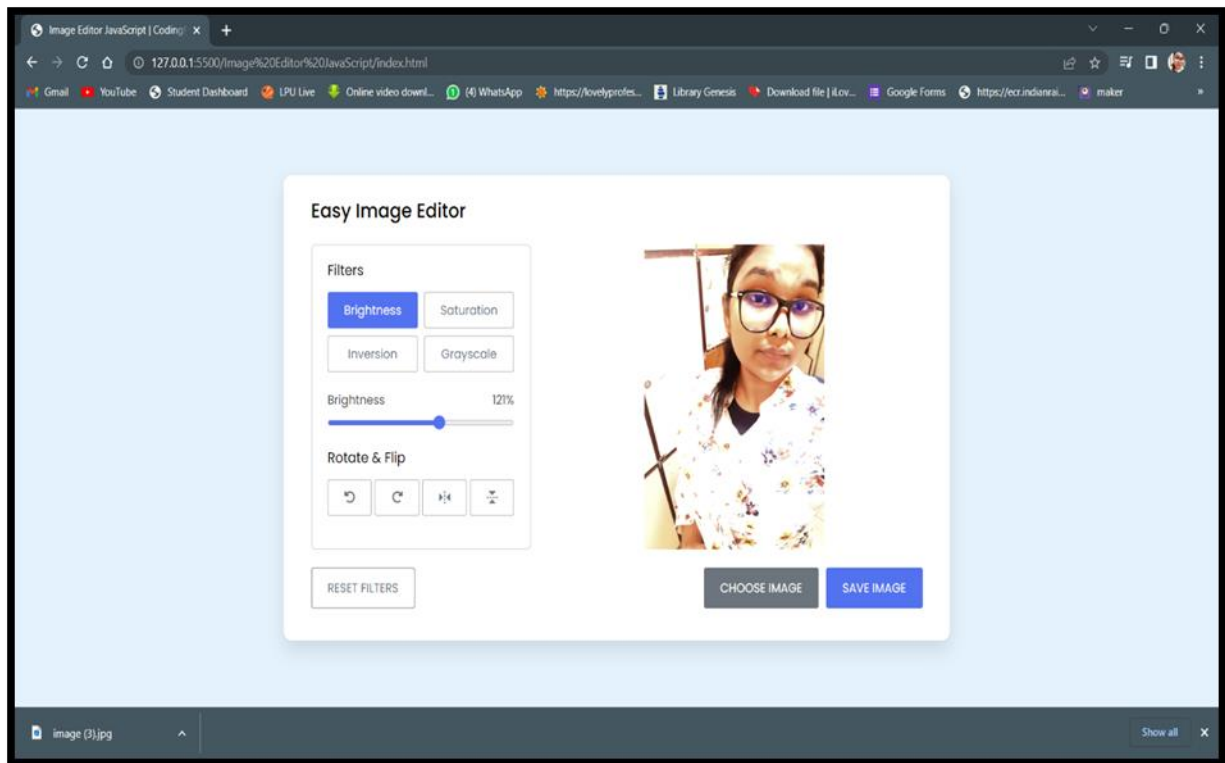

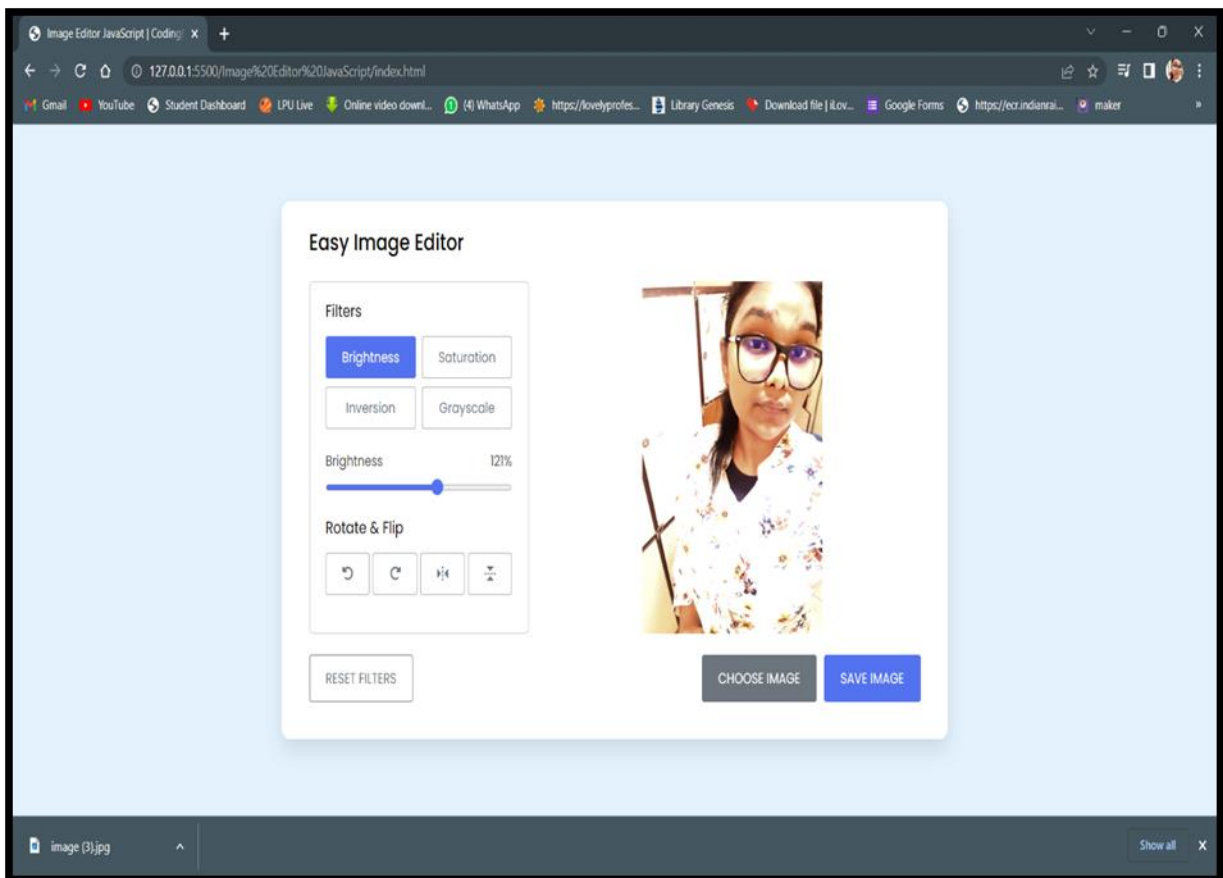

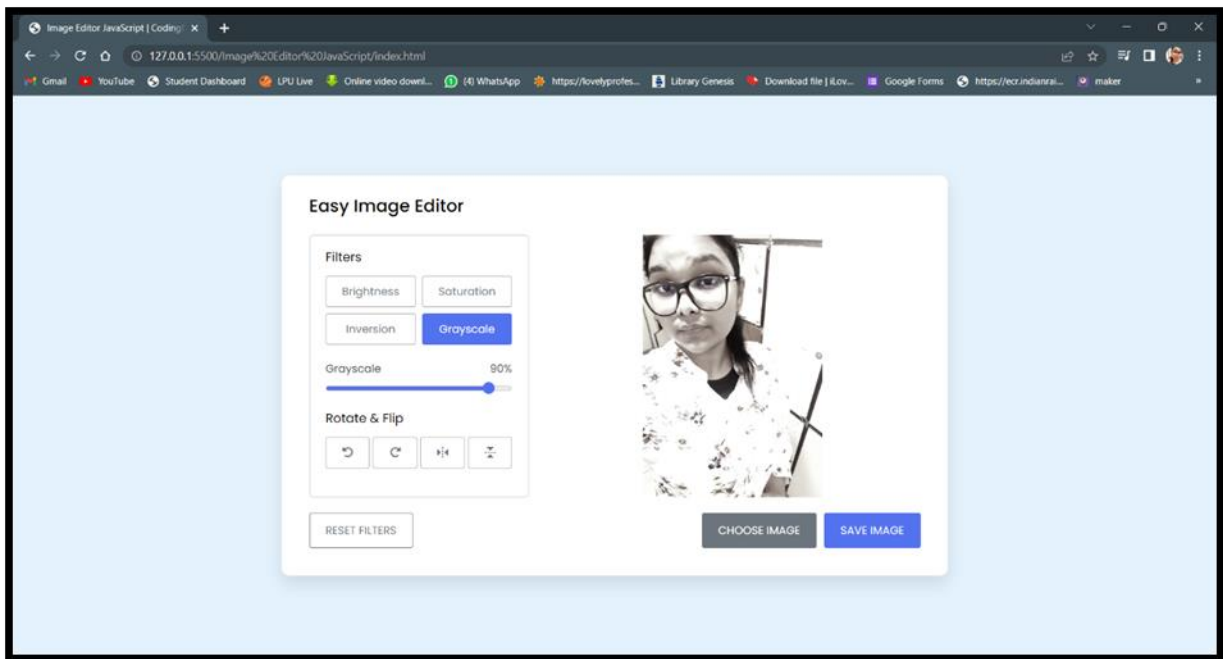

3. Third Page

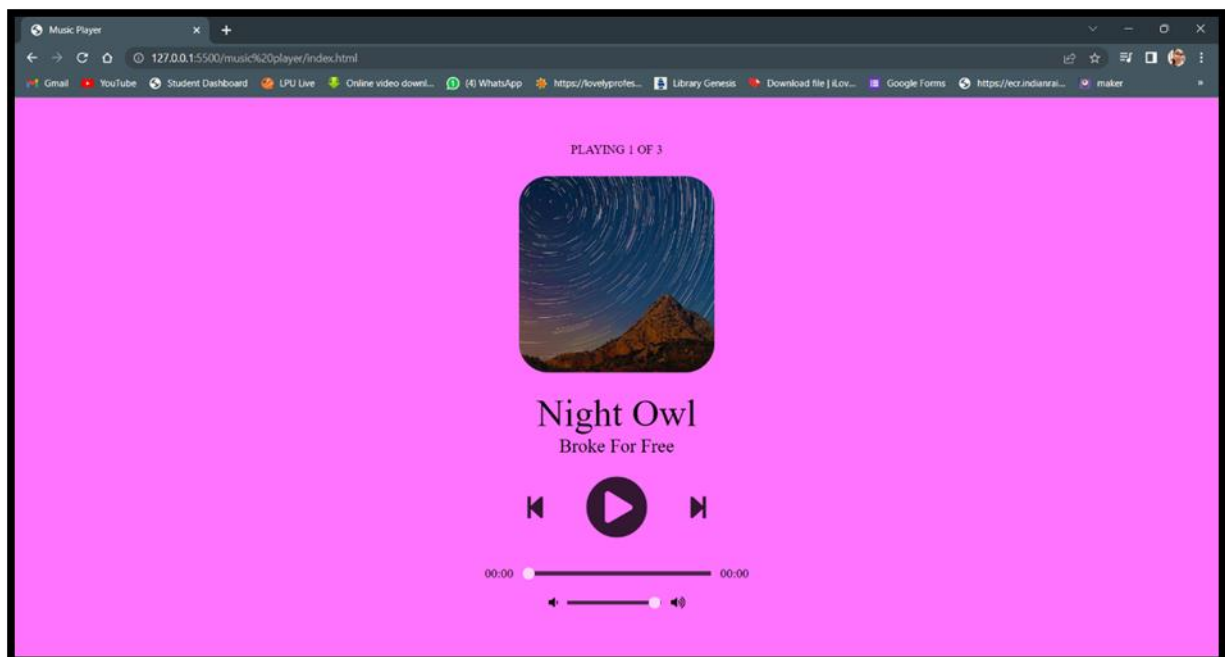

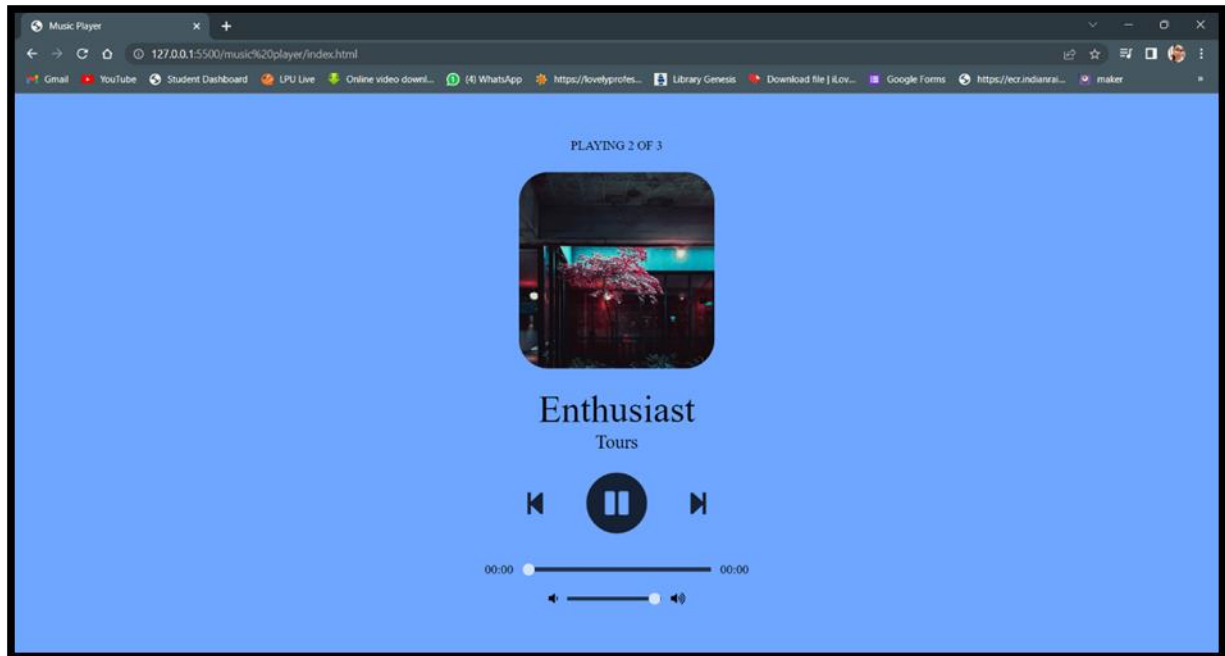

This page contains the photo editor webpage , where one can edit their image and can download it as well and also one can download the code to make it as a resume project.

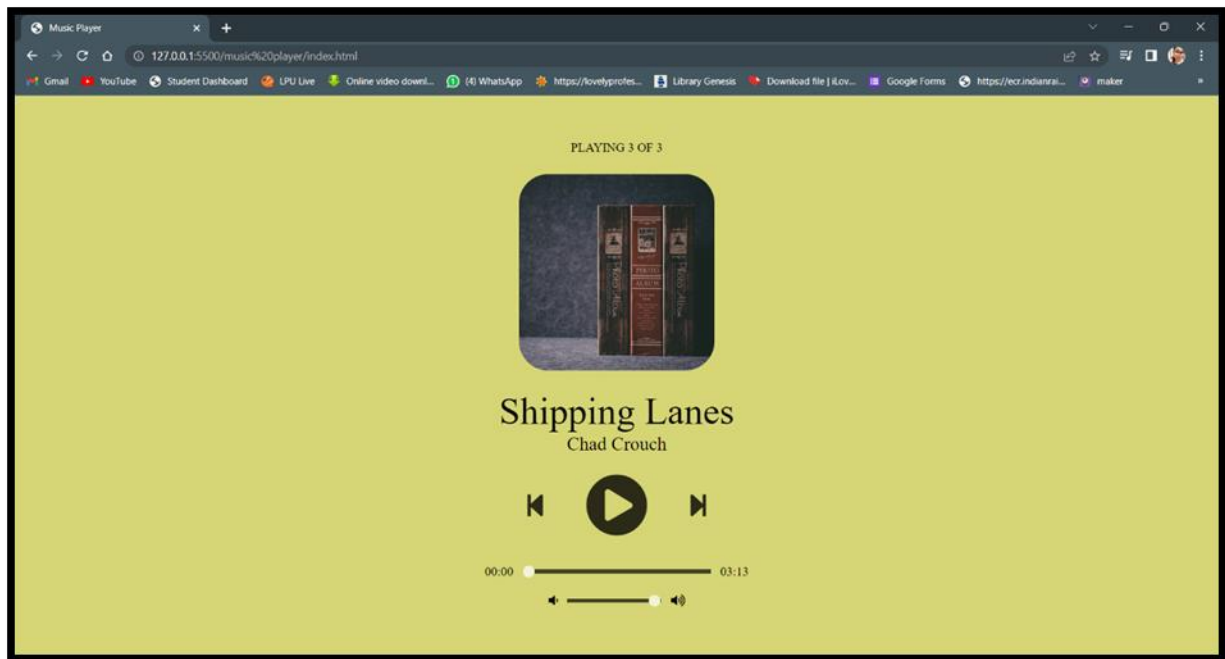

4 . Fourth Page

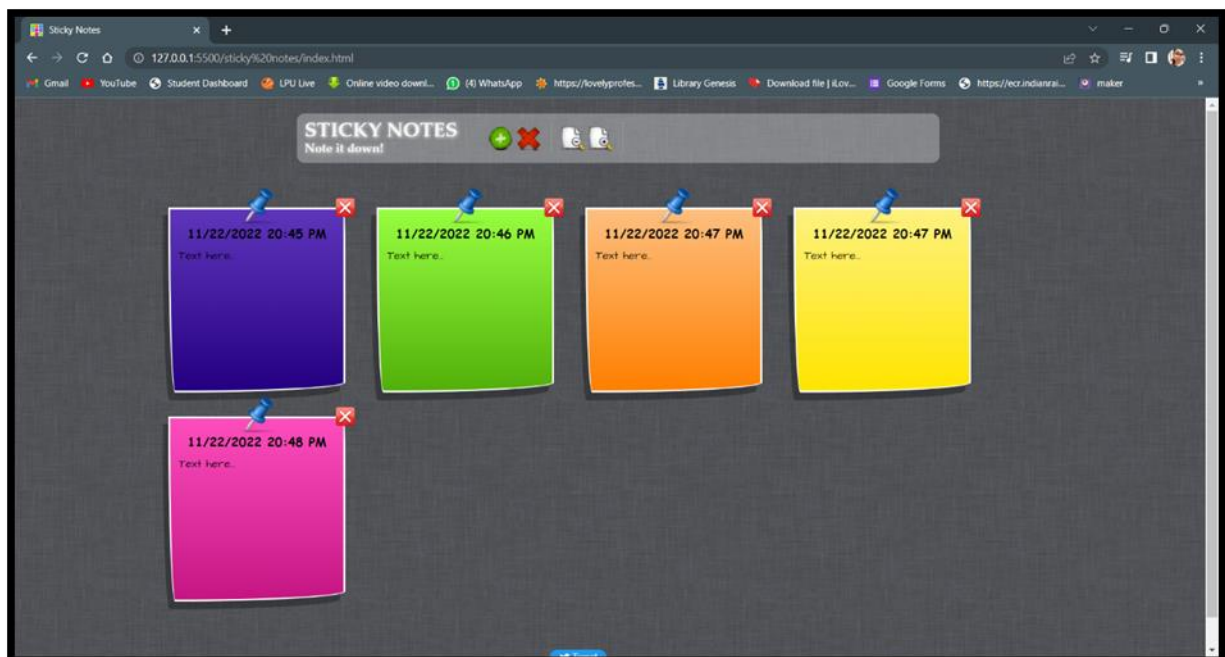

This page contains a music player, where one can play as many songs one will add to their JavaScript code and play it. and overall they can use it as project as well.

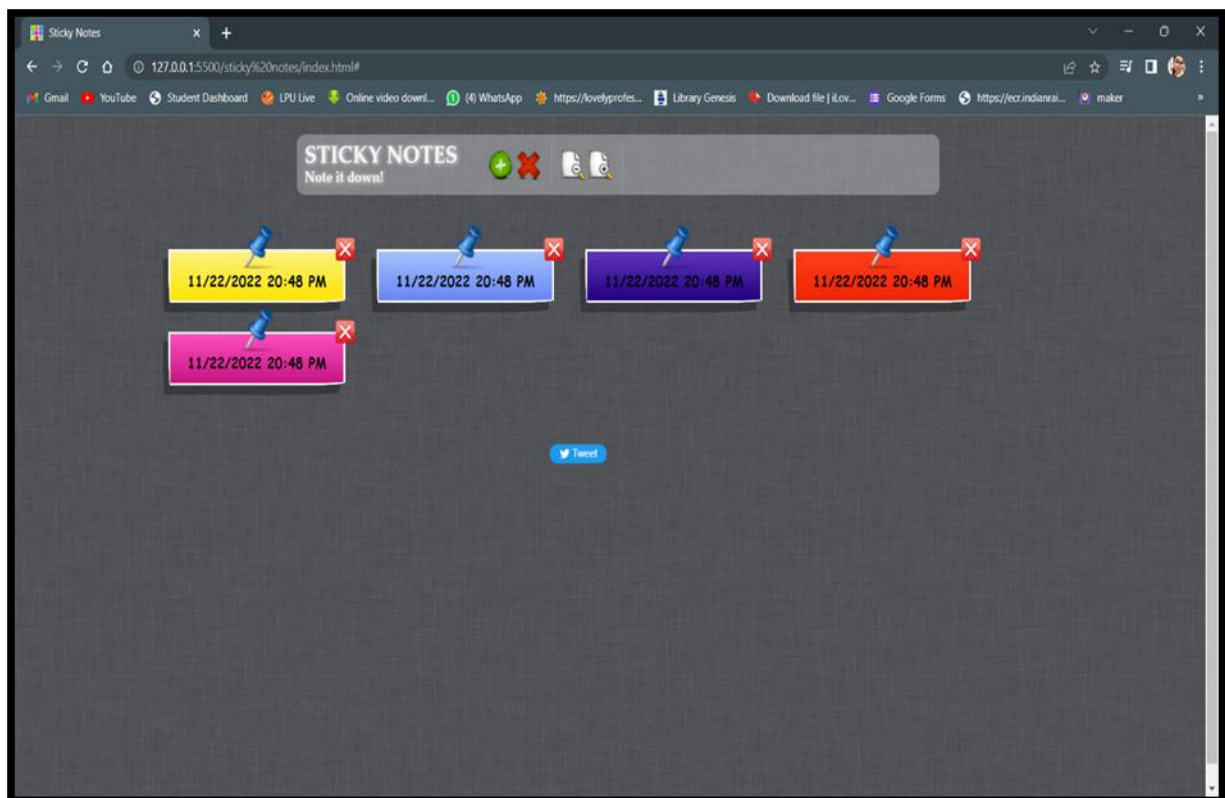

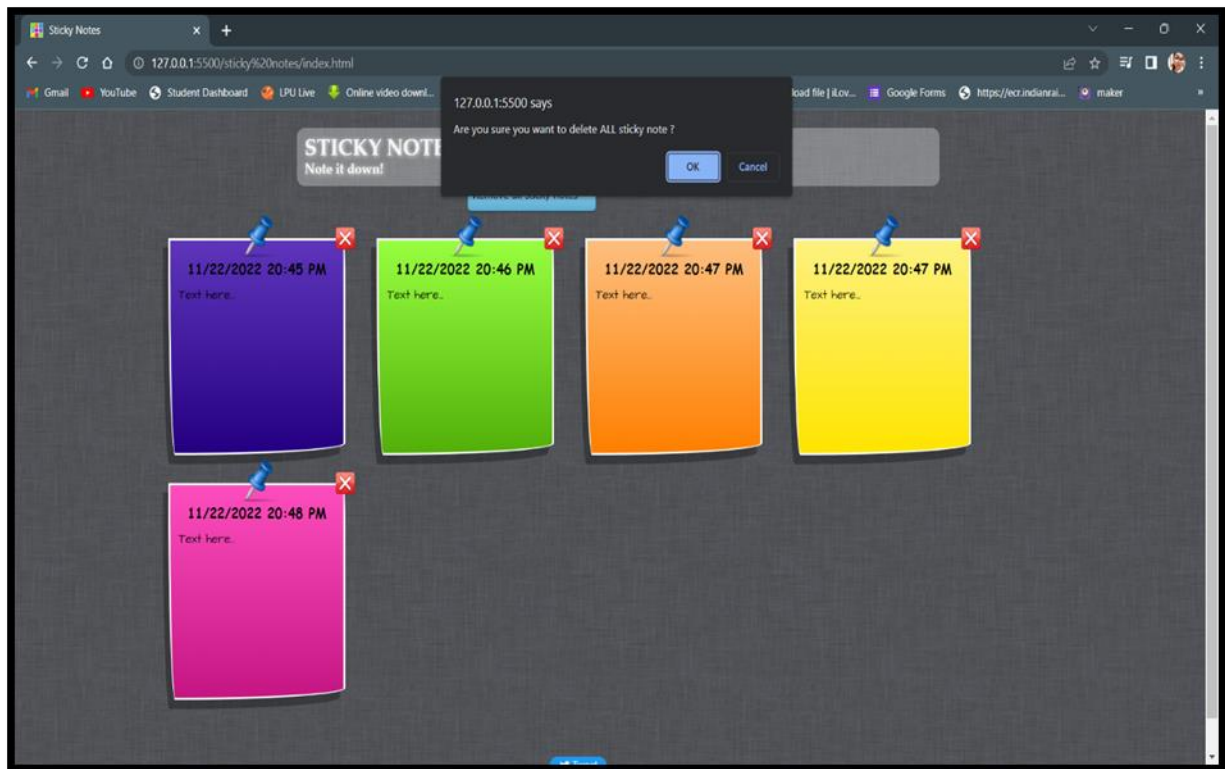

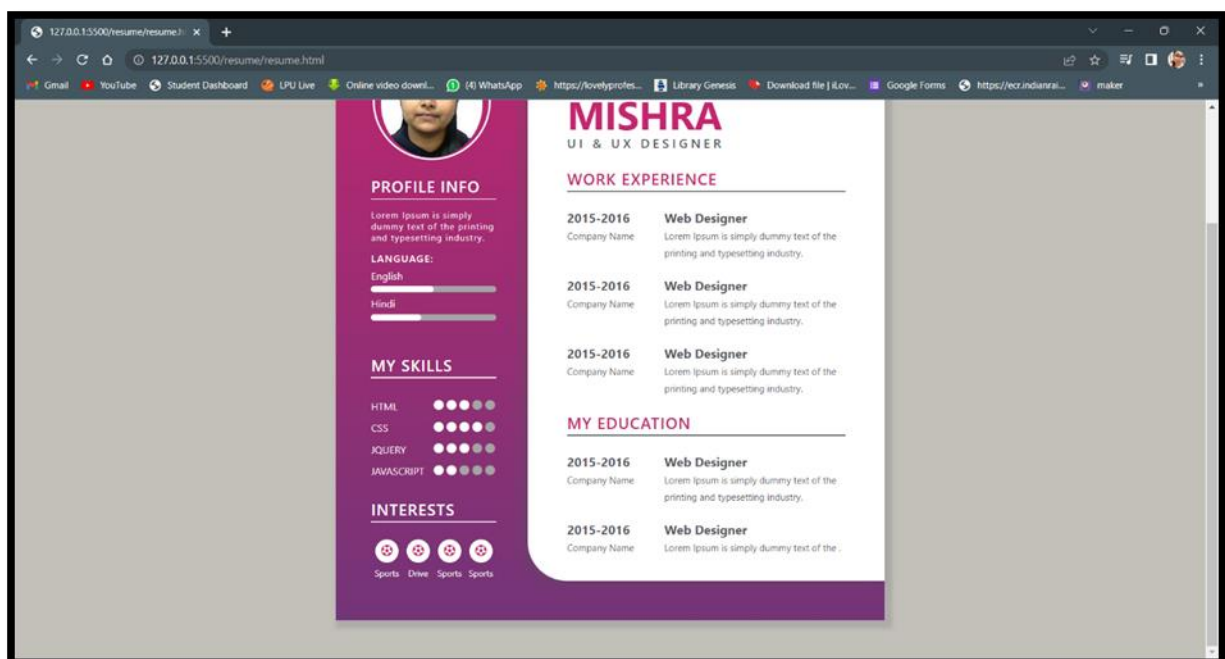

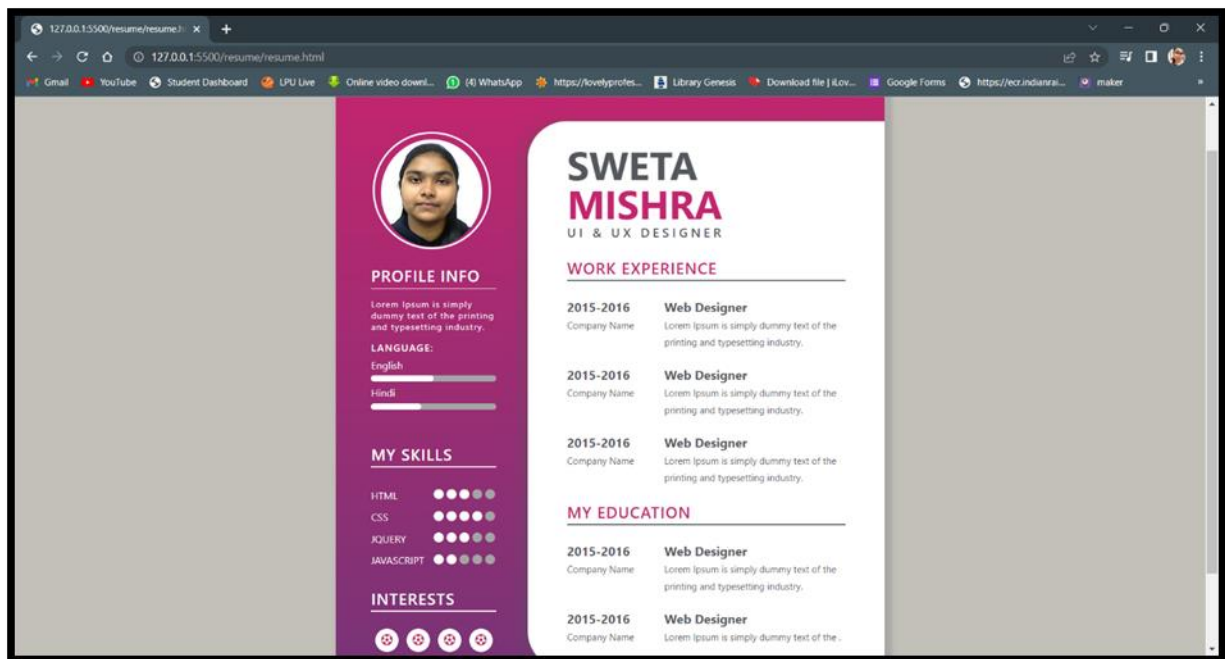

5. Fifth Page

This page contains a Sticky Notes, where one can use it for writing their to do list or to make some kind of short notes. one can create ,delete , expand , contract the sticky notes and overall they can use it as project as well.

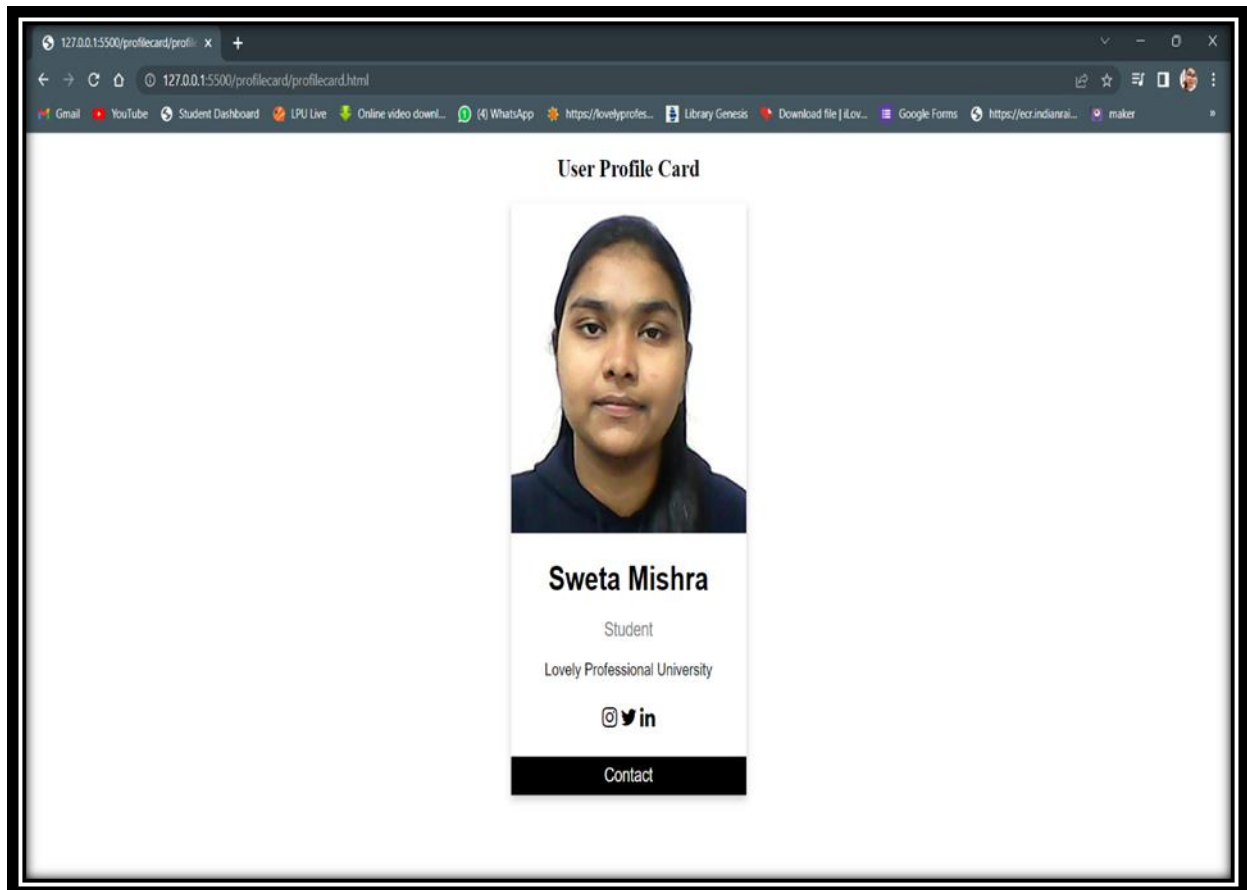

This page contains resume building website. One can build their resume for job application and all such thing.

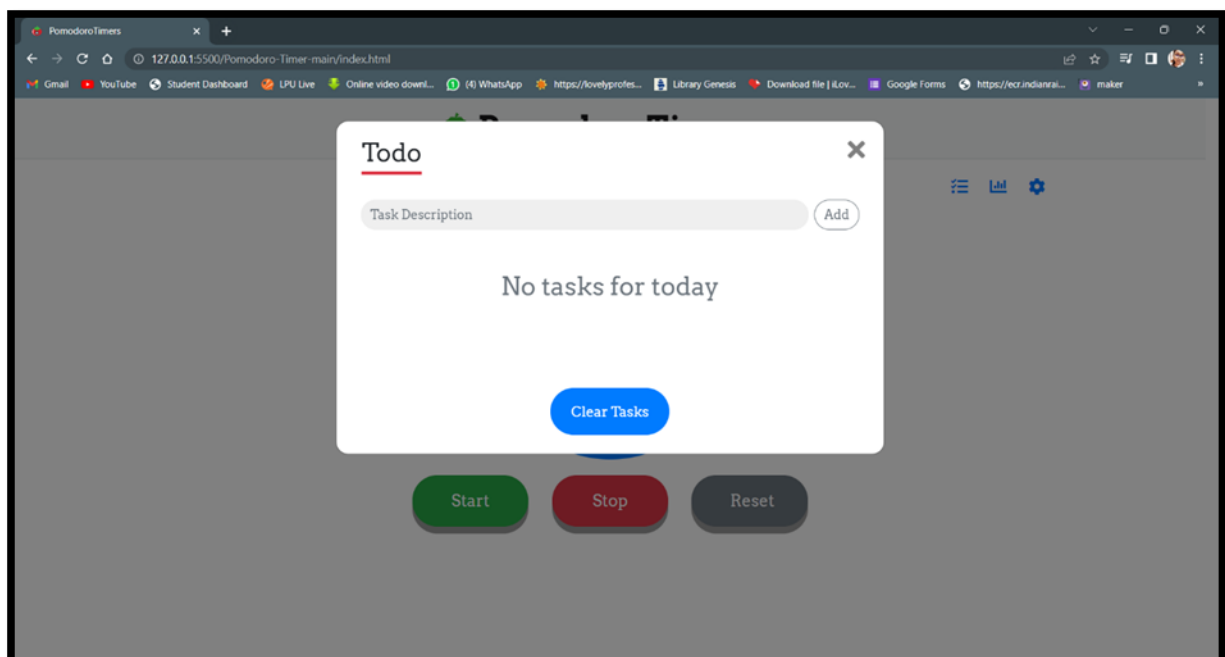

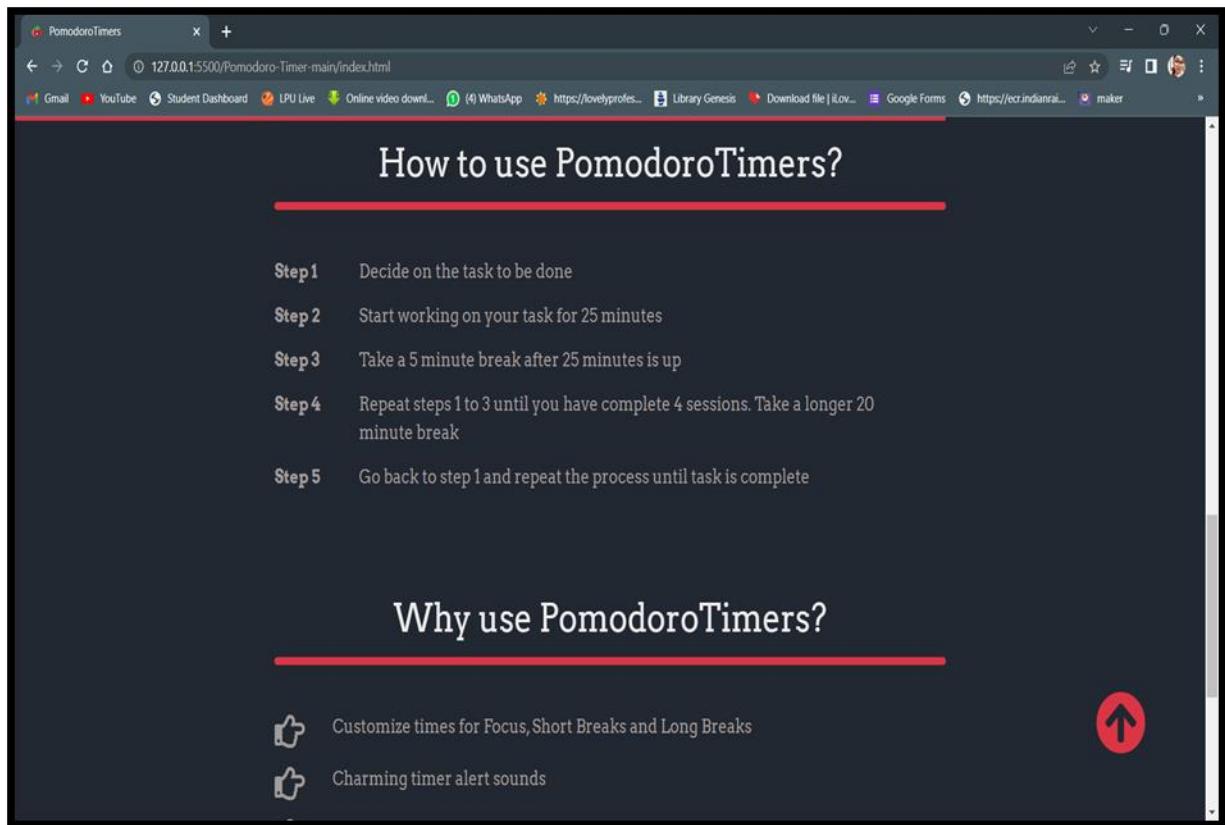

This page contains the Profile Card. one can build their profile card and also download the code for projects purpose.

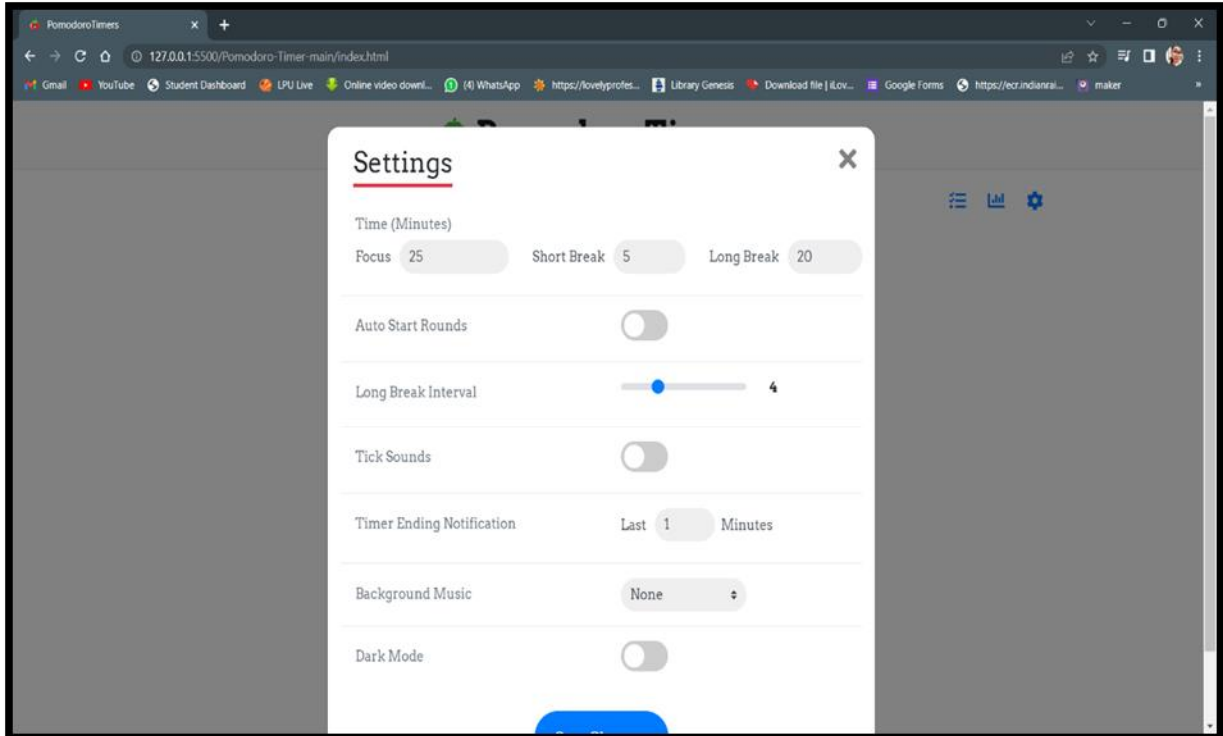

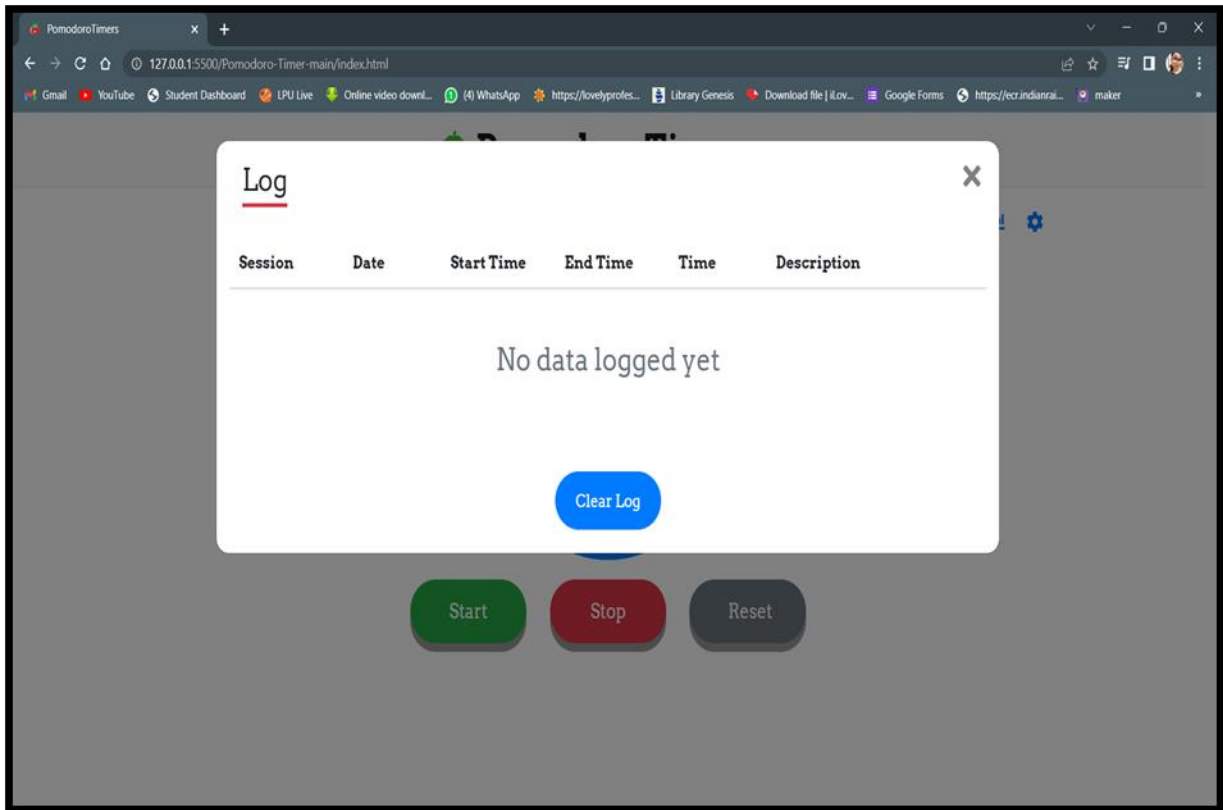

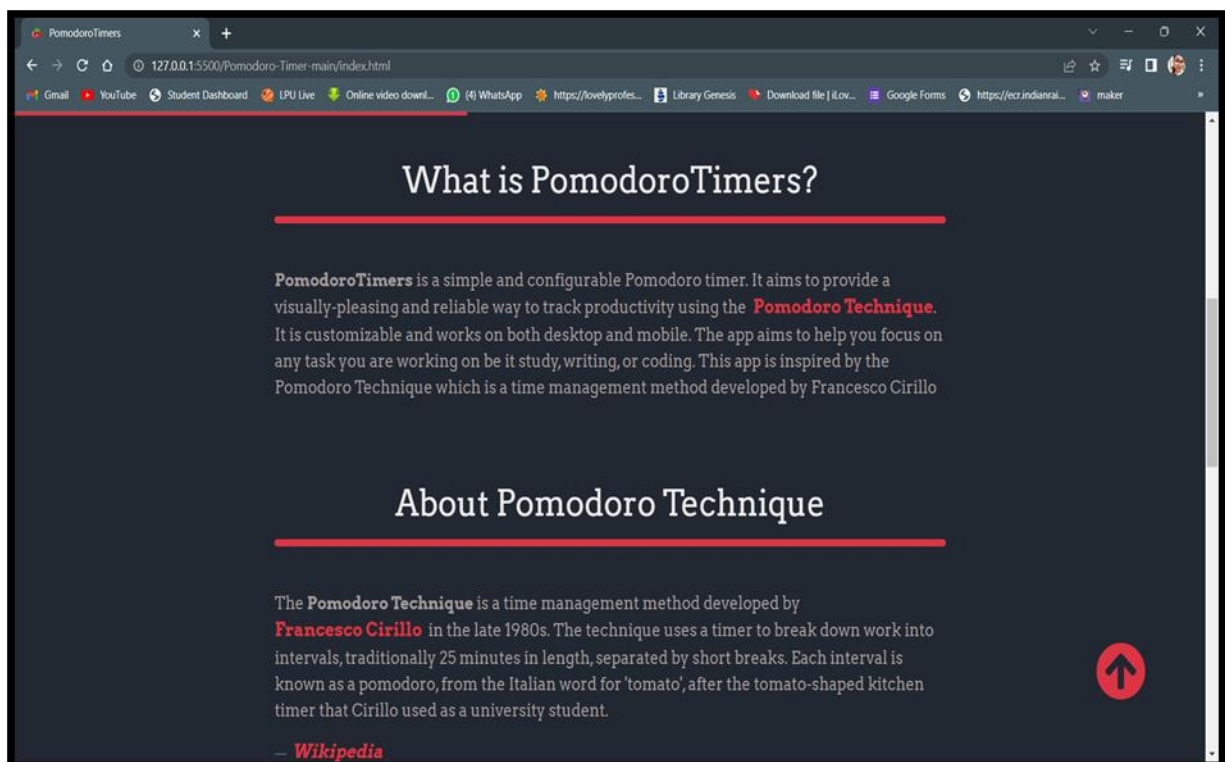

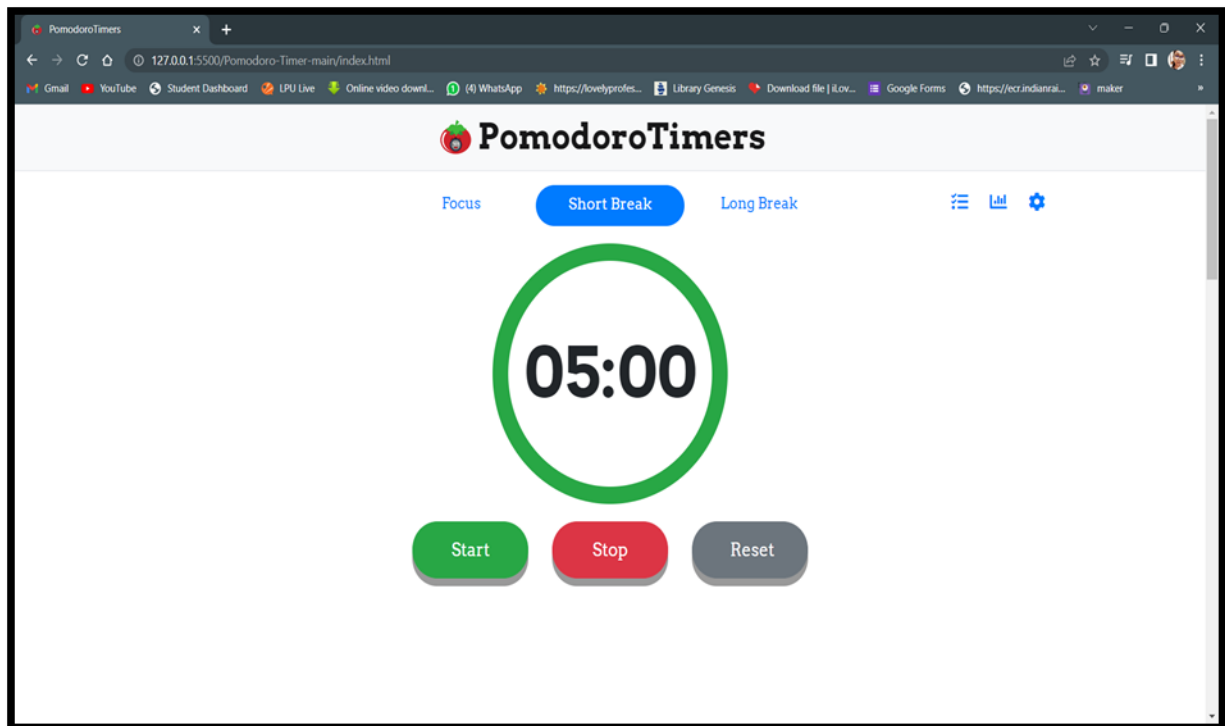

8. Eight Page

This page contains a Pomodoro Timer website where one can use it for studies and also it has many features for small break, long break, to do list and everything as well, one can download it as well.

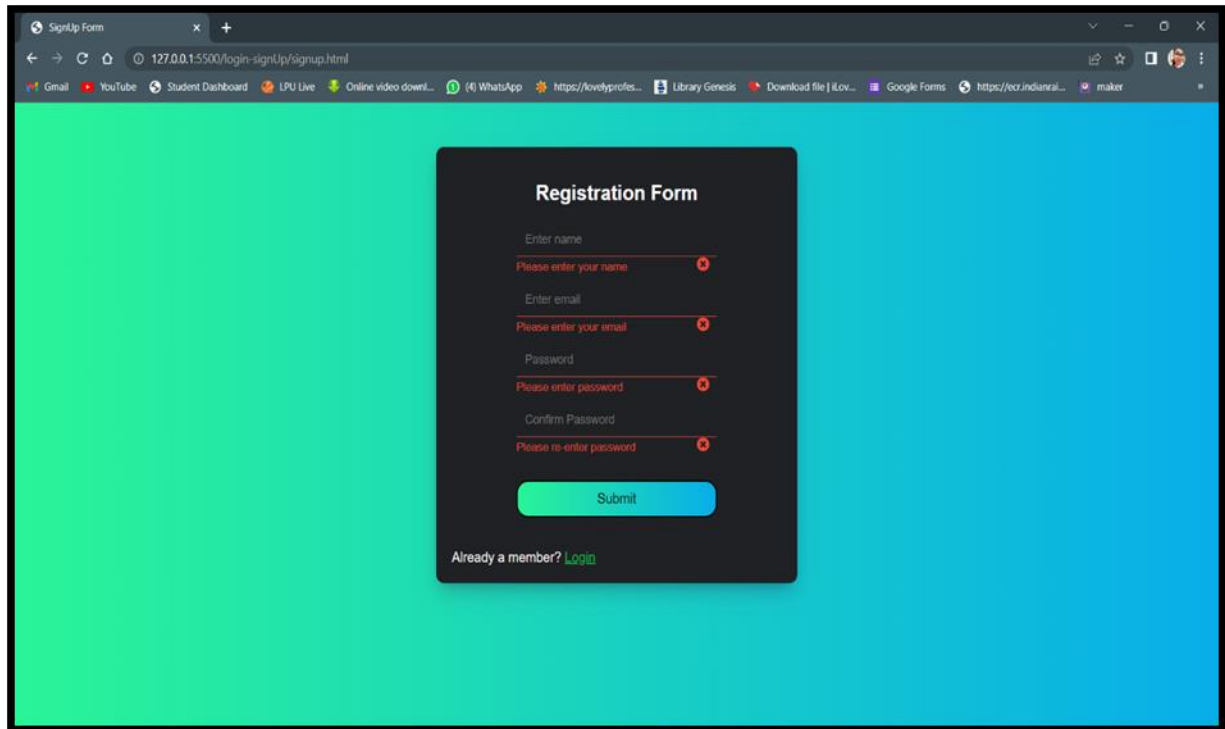

9. Nineth Page

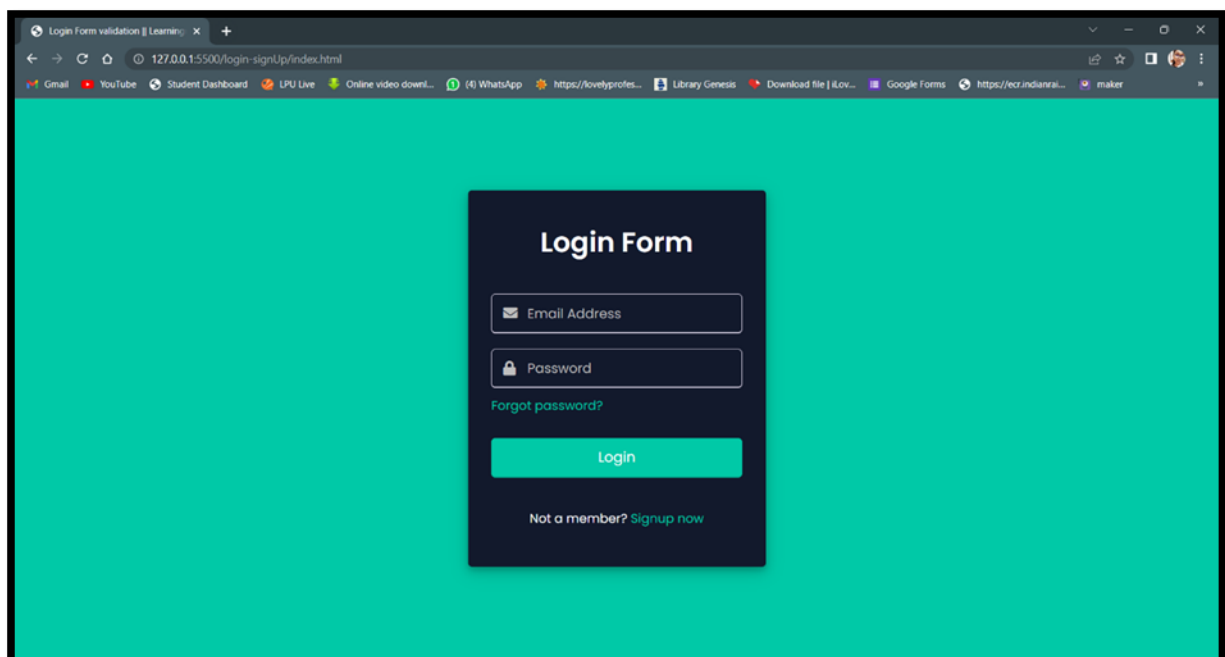

This is the last page that contains Login / Signup page, where proper validations are applied to all the fields.

The screenshot shows a web browser window with the title "SignUp Form". The address bar displays "127.0.0.1:5500/login-signUp/signup.html". The browser's tab and address bar show various open tabs and the current page. The main content area features a dark-themed "Registration Form" centered on a light blue background. The form includes the following fields and labels:
